Art Unit: 1631

DETAILED ACTION

Claims 1-9, 12-24, and 26-30 have been cancelled. Claims 10-11 and 25 are under consideration by the examiner.

The rejection of claims 10-12 and 25 under 35 U.S.C. 102(e) as being anticipated by Shimkets et al. (WO 02/29058 A2) is withdrawn in view of amendments to claims.

Specification

The amendment filed 3/22/04 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Insertion of references to Berman et al. on pages 12, 13, 134, and 135. No basis is seen for these changes.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

Claims 10-11 and 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 is directed to a mature protein and an extracellular portion. Applicant points to page 10 indicating that amino acids 1-17 of SEQ ID NO: 4 are the signal peptide. Applicant points to pages 19-20, bridging paragraph, stating that the mature protein is the protein minus the signal peptide. Applicant asserts that the extracellular portion must be amino acids 18-1508. By this argument the mature protein and the extracellular portion thereof are identical. However, the claims appear to imply that they differ in some way. As such, the claims are confusing.

Art Unit: 1631

Claim 25 is confusing in being directed to a kit. The only component listed is a polypeptide. The term "kit" in the preamble cannot be construed (in and of itself) to require inclusion of any other components such as containers, instructions, or other materials. See for example, claim 32 of Shimkets et al. (WO 02/29058 A2) directed to a kit. As such, it is unclear what limitation applicant intends by use of the term "kit" in the preamble.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
